TASTING NOTES

Chardonnay has always been a love and passion since I began drinking in the 90's. I have drank all the great Chardonnay's from around world and have a very distinct style in mind. Finally the time has come and the first Landhaus Chardonnay has been released.

Rich, luscious and aromatic, this wine is packed with ripe stone fruit, citrus, apple and some spice flavours. This wine has great density along with a strong textured character. It also has excellent mouthfeel as well as great purity and a nice minerality driven palate. This is serious Chardonnay that sort of creeps up on you as it's in the mouth. Drink it over the next several years. I hope you enjoy it as much as I loved making it.
